Our objectives

- supporting initiatives for a broad, international, independent, forensic / scientific investigation about the circumstances of the US attacks on September 11 2001
- supporting initiatives for a legal investigation to enable criminal prosecution of the actual perpetrators
- supporting initiatives to collect data on the impact of the attacks on humanity
- promoting cooperation with similar organizations at home and abroad
- approaching all forms of public media to explain the objectives and motives of the foundation
- stimulating youth awareness about the circumstances and consequences of 9/11
- raising funds to facilitate the above initiatives

The media unilaterally report about 9/11 and propagate the official lecture. For a balanced picture and a well-founded opinion, it is essential to **investigate all facts yourself**. On our website we have collected the most important books, videos and links to other websites that can help you on your way. Visit the site today.

George van Houts' Kom Plot and the September 11 Foundation

*"Fake news, false news, trolls, news-of-nonsense, conspiracies, conspiracy thinkers. These terms are constantly in the media. What else to believe? In the past, the newspaper was 'a gentleman' and the 9 o'clock news was sacred. You could count on that. The **government** was also reliable. But nowadays?*

*People and the media lied to each other. It seems different now than in the past, but is that really so? No. Not at all. The fake news is as old as humanity. But in the past the citizens were law-abiding and therefore gullible. The Kom Plot theater lecture is about **deception**.*

*Deception is one of the oldest **strategies** in martial art. In textbooks for army commanders in imperial ancient China it was already taught thousands of years ago: deception is one of the best ways to organize an advantage over your opponent. For example, go to battle in your enemy's combat kit! An attack under a '**false flag**' has been particularly popular for many centuries. What does such a 'false flag' mean? You organize an attack on your own citizens and blame someone else for that. Then you have a good reason to go to war against the other and your citizens will agree with you.*

*The war history is teeming with examples. But when an attentive citizen **investigates** and concludes: "We have been attacked by our **own government!** It was an attack under a **false flag!**" then that citizen will immediately be accused of **conspiracy thinking** and get the stamp of 'conspiracy maniac'.*

*This **media tactic** was perfected by the **CIA** after 1963, when millions of world citizens did not believe the official lecture on the murder of J.F. Kennedy and started **asking questions**. The CIA then paid millions to journalists, editor-in-chiefs and news show presenters to accuse anyone who questioned the Warren Report of 'conspiracy thinking'. An extremely **successful tactic** that continues to work well today.*

*The government misleads the citizen, who does not trust the matter, goes to investigate and ... gets an indelible stamp on the forehead: "conspiracy thinker". And with that you are **silenced** and rendered **harmless**. With that risk, in Kom Plot, I treat **conspiracies** about the murder of Julius Caesar through the murder of J.F. Kennedy until finally the main subject: **9/11**. In three hours I will teach you about fifteen **inconsistencies** in the official lecture of 9/11. With the most important never-satisfying-declared-smoking-gun: **Building 7**. But don't be afraid: the stories and events are so absurd that there is a lot of laughter during Kom Plot. Come and see if you dare..."*

Thus, the promotional text for my theater lecture. Outside the theater, the absurdities that I portray still lead a life of their own and thunder through in the raw reality. I am not a doubter, but if we continue like this and do not intervene **now**, little good can be expected in the near future. The lies must finally be **unraveled**, and the actual perpetrators must receive their **right punishment**. That is why I, together with a number of existing organizations in The Netherlands conceived the plan to set up the **September 11 Foundation**. Even after my theater series, this foundation must continue to provide you with information and continue to discuss, debate, confront, collaborate, encourage and, above all: **continue!**

9/11: 10 reasons for a closer look at the facts with other eyes and to investigate it

1 In 2000, **PNAC**, the influential neo conservative think tank "Project for a New American Century," wrote that if the US wanted to maintain their position in the world and expand it further, they would need a new drama like **Pearl Harbor** to make the American people warlike again.

2 All planes that bear away above American territory are usually intercepted by fighter jets **within 10 minutes**. On 9/11 this did not happen at all with the **4 hijacked aircraft**. Why not on that day? And why were **large-scale military exercises** going on?

3 The **Twin Towers** were hit by a plane at a different height and at a different angle. Yet they collapsed in almost the same way: smooth, **explosive**, symmetrical, within 12 seconds and through **70,000 tons** of cold, intact, structural steel. So strangely enough by the way of **most resistance!**

4 **WTC 7**, a 47-storey and 190-meter high skyscraper, was the **3rd** tower to collapse at 5:20 PM on 9/11. **Without a plane flying in**. The small fires that were raging there had been extinguished for some time when the tower **suddenly** came down like a controlled explosive demolition. The Dutch **explosive demolition expert** the late Danny Jowenko fully endorsed this when in 2006 he was shown the unknown images of the collapsing building in a Zembra TV broadcast.

5 WTC 7 collapsed during the first **2.25 seconds** in almost **free-fall** speed. That is about 30 meters, or about 8 floors. This fact is even fully recognized by **NIST** (the National Institute of Standards and Technology). However, it means that the **entire support structure**, including all connections on those floors, had **completely** and **simultaneously** lost their function. An office fire can never cause this and until that day it had **never** happened in a tower with a steel support structure. On September 11, 2001 it happened **three times** in one day!

6 WTC 7 owner Larry Silverstein already ordered SOM architect David Childs in **April 2000** to design a new building on the site of WTC 7, while the building was only 13 years old and well let! Was it his special business instinct or did he possess a certain amount of **prior knowledge**?

7 The American research institute **NIST** stated that it had found **no evidence** for the use of explosives. Upon inquiry it turned out that they had **not** looked for it, despite the fact that this is a **standard requirement** for such incidents!

8 The **9/11 Commission** was established **442 days after** the disaster day at the insistence of the bereaved. The Commission had too small a budget, was instructed in advance, **ignored** eyewitness reports and ceased important **evidence**. Both chairmen later stated that the committee was **set up to fail**.

9 At the **Pentagon**, where the **3rd** hijacked aircraft would have flown in after a difficult maneuver, the crime scene was entered and cleaned up immediately after the attack. Despite the many cameras around the building, clear images of the crash have never been released. In **Shanksville**, Pennsylvania, the crash area of the **4th** hijacked aircraft showed an **empty crater**. Emergency services reported to the press that they could find absolutely nothing. No aircraft parts or people, nothing that pointed to the crash of a large airliner.

10 These are just 9 examples of the many sensational issues associated with each other around 9/11. It is **inconceivable** that one man in a cave in Tora Bora managed to coincide with this coincidence of special circumstances, without having **cooperated** with **criminal elements** within the American government. If he has already had anything to do with it - there is still **no evidence** for that. The **FBI** also **agrees**. Take a look at our website for more facts and backgrounds: www.11september.eu

A few weeks after 9/11, former NATO general Wesley Clark was told by a colleague in the Pentagon how 7 countries were scheduled to be invaded in the following 5 years: Iraq, Syria, Lebanon, Libya, Somalia, Sudan and finally Iran. It didn't go that fast, but the list is almost complete:
